

WHEEL/AXLE AND BEARING ASSEMBLIES

Nolan wheel/axle and bearing assemblies are adaptable for use on push cars, trailers, and similar maintenance-of-way applications. Each assembly comes complete with a one-piece tapered axle, two pillow-block roller bearings, and two tapered bore 16" diameter ductile iron cast wheels* Assemblies are available both insulated and non-insulated.

MODEL NO. 7401-30: WHEEL/AXLE ASSEMBLY (heavy-duty)

The heavy-duty assembly provides a 10,000 lb. load capacity using a 2" diameter one-piece axle and Model No. 7005 wheels. (For 20" diameter wheels, specify Model No. 7422-30.)

MODEL NO. 7404-50: WHEEL/AXLE ASSEMBLY (extra heavy-duty)

The extra heavy-duty assembly provides a 20,000 lb. load capacity using a 3" diameter one-piece axle and Model No. 7001 wheels. (For 20" diameter wheels, specify Model No. 7423-50.)
